

Leica Geosystems Construction Catalogue Tools for any site

Service & Support

Strongest warranty and calibration certification offering

Leica CalMaster Laser Calibration Services

Construction sites are harsh environments and put incredible strain on rotating lasers. To ensure the most accurate results and to avoid costly mistakes, these tools need periodic care and calibration, but that can be a strenuous effort resulting in downtime and lost business. Your local Leica Geosystems representatives now offer quick and reliable calibrations with the Leica CalMaster.

More value for your business:
As the industry's only calibration system issuing ISO certifications for rotating lasers, you can trust that your Leica Geosystems laser will perform with complete accuracy.

Win more bids with this value-added service and strengthen your professional reputation. Highest accuracy standard on Leica Geosystems rotating lasers opens up new opportunities making them your new business partner.

PROTECT by Leica Geosystems Lifetime Manufacturer's Warranty:

Our lifetime warranty guarantees the quality and reliability of our products. However, should a device fail because of defects in material or workmanship, we will repair or replace it free of charge.

No Cost Period:

Leica Geosystems' products fulfil the highest quality requirements to support you efficiently in your everyday work on site. Should your product become defective, we will repair or replace it at no charge, simply and straightforwardly.

In the event of a repair being necessary, you benefit from the following services:

- Repair or replacement of all defective parts
- Calibration and check of settings
- Comprehensive functional test and safety check
- Servicing and cleaning of the device

PROTECT is subject to Leica Geosystems International Limited Warranty and PROTECT General Terms & Conditions set out under www.leica-geosystems.com/protect.

Laser Distance Meters

Quick and efficient

Measure distances and tilts at the touch of a button, in just a few seconds. Saving you time and money.

Precise and reliable

Measure distances to millimetre accuracy. Laser technology makes it possible.

Versatile and functional

The perfect solution for every measuring situation. With more flexibility for you.

Safe and modern

Avoid dangerous measuring situations at work. Use today's modern technology.

06-12 Leica DISTO™
Family

13-15 Leica 3D Disto

Leica DISTO™ Family

The right one for each job

Leica DISTO™ D110

Small size, big possibilities

1 DISTO™ D110

The Leica DISTO™ D110 is the first laser distance meter with Bluetooth® Smart that fits to a pocket. Its handy design with a pocket clip and simple functions make it a perfect tool for anyone that wants to take effortless measurements.

Article no. 808088

1

Leica DISTO™ D210

Be even more professional

2 DISTO™ D210

The compact and handy entry-level model has many interesting functions and is still simple to use. Addition and subtraction, area and volume calculations for rapid and reliable site measurements. The last 10 results are stored and the measuring reference for the flip-out end-piece is switched automatically.

Article no. 783648

2

Leica DISTO™ D2

The compact model with 100 m range

3 DISTO™ D2

Due to the latest measurement technology the Leica DISTO™ D2 achieves a range of 100 m. With Bluetooth® Smart the measurements can be transferred immediately to smartphones or tablets. Sensors in the flip-out end-piece enable the automatic detection of the end-piece position.

Article no. 837031

3

Leica DISTO™ X310

The extremely tough and multifunctional laser distance meter

4 DISTO™ X310

The Leica DISTO™ X310 is IP 65 certified, dust tight and jet water protected. Furthermore it has been tested by dropping from heights of up to 2 m. Thanks to the integrated tilt sensor, precise indirect distance and height measurements are possible. The Leica DISTO™ X310 guarantees reliable measurements even under extreme conditions.

Article no. 790656

4

Leica DISTO™ D410

Precise targeting and simple outdoor measurement

5 DISTO™ D410

The new Leica DISTO™ D410 stands for easy and effortless outdoor distance measurement. With its digital Pointfinder you can target and measure distances even when you cannot see the laser dot. Accurate targeting provides reliable results, especially over long distances and in glaring sunshine. Due to the protection class IP 65, it always delivers reliable results.

Article no. 822822

5

Leica DISTO™ D510

Great outdoor functionality and apps

6 DISTO™ D510

The DISTO™ D510 stands for easy and effortless outdoor distance measurement. The unique combination of digital Pointfinder and 360° tilt sensor allows measurements which are not possible with conventional distance meters. In addition, with Bluetooth® Smart and attractive free apps, you are prepared for the future.

Article no. 792290

6

Leica DISTO™ D810 touch

The smartest solution to measure and document

7 DISTO™ D810 touch

The Leica DISTO™ D810 touch is the world's first laser distance meter with a touch screen and revolutionary "measure with a picture" feature. The integrated camera can be used to take pictures and download them to a computer. The high level of functionality is perfectly completed by the smart free app Leica DISTO™ sketch.

Article no. 792297

7

Leica DISTO™ S910

Measure anything from anywhere

8 DISTO™ S910

The Leica DISTO™ S910 is worldwide the first laser distance meter with the revolutionary P2P Technology. Measure fast and easily distances between any two points from one location. The measurement results can be transferred instantly to PC's via WLAN or Bluetooth® Smart. Alternatively the results can be saved on the device as DXF data and downloaded later with the USB interface for use in CAD software. This shortens the workflow and saves valuable time.

Leica DISTO™ Family

Professional packages for each application

9 Leica DISTO™ D210 and Lino L2 case – The professional package for easy measuring and alignment

This package was specifically designed for interior applications. It combines everything that you need for accurate and reliable measuring and alignment. The laser distance meter Leica DISTO™ D210, the cross line laser Lino L2 and the tripod TRI 70 are stored safely and ready-to-use in the robust, attractive and functional carrying case.

Article no. 806656

10 Leica DISTO™ D510 case – Convenient aiming, precise and easy outdoor measuring

This package is the perfect outdoor combination for convenient aiming and precise measurements, even in bright sunshine. The clear arrangement of the Leica DISTO™ D510, Leica FTA360 tripod adapter and Leica TRI 70 tripod in a robust case means you always have everything safe and at hand.

Article no. 823199

11 Leica DISTO™ D810 touch case – Convenient aiming, precise measuring and easy documentation

This package consists of the Leica DISTO™ D810 touch, the Leica FTA360 adapter and the tripod TRI 70. In combination with the FTA360 adapter, the Leica DISTO™ D810 touch becomes a highly precise measuring station. Everything comes together in an attractive and robust carrying case.

Article no. 806648

12 Leica DISTO™ S910 case – The complete set to measure anything from anywhere

This package is the complete professional system for convenient aiming, precise measurements of point data and creating drawings. It consists of the Leica DISTO™ S910, the Leica FTA360-S tripod adapter and the Leica TRI 70 tripod. The instrument and accessories come in an attractive, robust case.

Article no. 806677

Leica DISTO™ Family

Accessories supplied with / optional

1 TRI 70 Tripod

The small portable tripod is intended for everyday use. Its features include easy fine adjustment and a bubble level. Extendable length from 0.40 m to 1.15 m. Ideal with the FTA360 or FTA360-S adapter.

Article no. 794963

2 TRI 100 Tripod

Quality tripod with bubble level, very easy fine adjustment. Extendable length from 0.70 m to 1.74 m.

Article no. 757938

3 TRI 200 Tripod

Stable construction tripod with 1/4" screw to use with DISTO™ on a FTA360 or FTA360-S adapter or Lino. Extendable length from 0.75 m to 1.15 m.

Article no. 828426

4 FTA360 Adapter

Sturdy adapter with fine adjustment for convenient and precise targeting. The adapter eases the task of targeting above all over long distances, and reduces the discrepancies to a minimum when taking indirect measurements. Especially suitable for the Leica DISTO™ D510 and D810 touch in combination with the TRI 70, TRI 100 and TRI 200 tripods.

Article no. 799301

5 FTA360-S Adapter

Stable adapter with fine adjustment for convenient and accurate aiming, minimizes measuring deviation for indirect measuring, works in conjunction with Leica DISTO™ S910 and with tripods TRI 70, TRI 100 and TRI 200.

Article no. 828414

6 LSA360-S Adapter

Adapter to have the laser beam aligned to the tilting axis when measuring angles and moving the Leica DISTO™ vertically. Works in conjunction with the Leica DISTO™ D810 touch or Leica DISTO™ S910 and set up poles with diameters between 11-35mm.

Article no. 838704

7 GZM3 Target Plate

The new target plate is the perfect accessory for measuring templates, worktops etc. – wherever shapes have to be captured. Edges, curves, markings and corners can be measured in any position.

Article no. 820943

8 GZM26 Target Plate, large

Grey side for short and brown side for long distance measurements.

Size: 210 × 297 mm (A4).

Article no. 723385

9 GZM27 Stick-On Target Plate

Target plate held in place with kneading adhesive.

Size: 45 × 100 mm.

Article no. 723774

10 GZM30 Target Plate

Stick-on target plates for placing on ground markers.

Size: 274 × 197 mm.

Article no. 766560

11 POWERLINE 4 LIGHT Charger

For charging 4 rechargeable batteries; type AA or AAA; with 4 adapters for worldwide use; including 4 rechargeable batteries AA / 2500 mAh.

Article no. 806679

12 UC20 Universal Quick Charger

For charging 2 rechargeable batteries; type AAA; with 4 adapters for worldwide use; Including 2 rechargeable batteries type Micro AAA NiMH / 800 mAh.

Article no. 788956

13 GLB30 Super Light Laser Visibility Glasses 3 in 1

With three different lenses: laser visibility glasses, safety glasses and sun glasses.

Red lens glasses for improved visibility of the laser dot in bright rooms and outdoors up to 10–15 m.

Article no. 780117

Leica DISTO™ Apps

Bring the office to the construction site

The smart apps “Leica DISTO™ sketch” and “Leica DISTO™ transfer” are the ideal interface between the Leica DISTO™ with Bluetooth® and a smartphone or tablet. They allow sketches or photographs to be created and dimensioned quickly, or the transfer of measurements into a chart. The data is subsequently able to be sent directly to the office. This simplifies and speeds up working practices.

Leica 3D Disto

Recreating the real world

The high-precision Leica 3D Disto is used whenever the use of conventional measuring tools is only possible with a great deal of time and effort. With the various measurement functions you can record all spatial situations precisely and use the data afterwards in your customary software environment. With the realistic data you can produce the final parts directly. The time-consuming template and modification work during installation is no longer necessary. The fully digitalised workflow saves valuable time.

Leica 3D Disto

Versatility meets efficiency

1 Leica 3D Disto with control unit

Leica 3D Disto and rugged control unit in one box. The control unit is especially designed for harsh jobsites and nevertheless small and handy for long working hours. The operation via touchscreen and coloured display ensures the convenient use.

Article no. 784357

2 Leica 3D Disto with 3D Disto software for Windows®

Leica 3D Disto with a licence for the Leica 3D Disto software for Windows®. The intelligent software on a Windows® device controls the Leica 3D Disto, automatically carries out all complicated calculations in the background and only supplies all the relevant information.

Article no. 836546

3 Licence for Leica 3D Disto software for Windows®

Windows License for Leica 3D Disto software for operation systems Microsoft Windows 7 or higher. Single license, valid for one Leica 3D Disto.

Line & Point Lasers

Set-up, switch on and start working.

Leica Lino lasers project lines or points to millimetre accuracy, making it easier for you to get the job done right.

All Leica Lino lasers are self-levelling, so you can set-up, switch on and start working. Top quality optics and proven accuracy ensure that the projected lines give you a reference line that you can trust. Lino lasers are so simple to understand and operate, providing you with the flexibility to complete any interior application that require you to level, align, plumb or square.

18-21 Leica Lino Family

Leica Lino Family

Perfectly aligned and arranged

Leica Lino P3 and P5

1 Lino P3

The lasers for quick setting-out and layout jobs and for easy upward and downward vertical aligning. Target plate, magnetic multifunction adapter, alkaline batteries (type AA, 3 × 1.5 V), pouch.

Article no. 777067 (Lino P3)

Article no. 777068 (Lino P5)

1

Leica Lino L2

2 Lino L2

The tried-and-tested cross line laser for easy horizontal and vertical aligning. Target plate, magnetic multifunction adapter, ball adapter for tripod, alkaline batteries (type AA, 3 × 1.5 V), carrying pouch.

Article no. 757225

2

Leica Lino L2+

3 Lino L2+

The handy cross line laser with extra-long laser lines for horizontal and vertical aligning. Target plate, magnetic multifunction adapter, alkaline batteries (type AA, 4 × 1.5V), pouch.

Article no. 783711

3

Leica Lino L2G+

4 Lino L2G+

The green cross line laser with up to 4-fold improved visibility. Target plate for green lasers, magnetic multifunctional adapter, alkaline batteries (type AA, 4 × 1.5V), pouch.

Article no. 817856

4

Leica Lino L2P5

5 Lino L2P5

The small and handy all-rounder for quick setting-out, layout and alignment jobs. Target plate, magnetic multifunction adapter, alkaline batteries (type AA, 4 × 1.5V), pouch.

Article no. 777069

5

Leica Lino L360

6 Lino L360

Thanks to the projection of a precise 360° laser line this chargeable laser is ideal for transferring height measurements and reference points. Target plate red, mini tripod adapter, international charger with 4 plugs.

Article no. 790509

6

Leica Lino L4P1

7 Lino L4P1

Multi line laser to cover a wide range of applications. It can be turned by 360° on a base plate with fine adjustment thus facilitating simple and easy marking of 90° layouts. It is easy to exchange the Li-Ion batteries with 24 hours of operation with normal alkaline batteries. Target plate red, Li-Ion battery pack, international charger with 4 plugs, Alkaline battery tray, hard case.

Article no. 834838

Leica Lino Family

Professional Lino packages

8 Leica DISTO™ D210 and Lino L2 case – The professional package for easy measuring and alignment

The laser distance meter Leica DISTO™ D210, the cross line laser Lino L2 and the tripod TRI 70 are stored safely and ready-to-use in the robust, attractive and functional carrying case.

Article no. 806656

9 Leica Lino L2P5 Pro Case – The complete solution for interior applications

Leica Lino L2P5 point and cross line laser, target plate, magnetic multifunction adapter, pouch, Leica TRI 70 tripod, charger incl. 4 rechargeable NiMH batteries, Leica carrying case.

Article no. 820685

10 Leica Lino L2G+ Pro Case – See the difference of green visibility

Leica Lino L2G+ cross line laser with green beam, target plate, magnetic multifunction adapter, pouch, Leica TRI 70 tripod, charger incl. 4 rechargeable NiMH batteries, Leica carrying case.

Article no. 817857

Leica Lino Family

Accessories supplied with / optional

1 Receiver RVL 80

For detecting red line laser beams over longer distances or in difficult light conditions. Localizes the laser beam at a distance of up to 80 m. Optical and acoustic signals help to find the laser plane.

Compatible with Lino L2, L2+, L2P5, L360, L4P1.

Article no. 838757

2 Receiver RVL 100

An acoustic signal and a visual signal are provided for finding the line outdoors. 2 large displays make it easy to find the line at a distance up to 80 m. The clamp can be attached quickly by magnets.

Compatible with Lino L2, L2+, L2P5, L360, L4P1.

Article no. 784962

3 Wall Bracket

Wall and ceiling adapter with 1/4" screw, of universal application thanks to screw fastening.

Compatible with L2, L2+, L2P5, P3, P5, L360, L4P1.

Article no. 758839

4 CLR290 Clamp Rod

For stepless positioning of lasers at different heights up to 2.90 m. With mounting platform. For all Linos.

Article no. 761762

5 TRI 70 Tripod

The small portable tripod is intended for everyday use. Its features include easy fine adjustment and a bubble level. Extendable length from 0.40 m to 1.15 m.

Article no. 794963

6 TRI 100 Tripod

Quality tripod with bubble level, tilting platform, and very easy fine adjustment. Extendable length from 0.70 m to 1.74 m. Compatible with DISTO™ and Lino.

Article no. 757938

7 POWERLINE 4 LIGHT Charger

For charging 4 rechargeable batteries; type AA or AAA; with 4 adapters for worldwide use; including 4 rechargeable batteries AA / 2500 mAh.

Article no. 806679

Interior Lasers

Strong performance on all levels.

Leica Roteo rotating lasers are truly multi-talented performers. Whether on ceilings or walls, on the floor or on a tripod they allow you to work precisely on many indoor and outdoor tasks in which levelling or aligning is required.

24-25 Leica Roteo
Family

Leica Roteo 20HV

The ideal entry level model

The Leica Roteo 20HV is the ideal rotating laser for basic users. Its easy-to-understand keypad is intuitive to operate. The package includes a complete set of accessories for interior applications with remote control, wall mount bracket and target plate.

1 Roteo 20HV Package

Leica Roteo 20HV rotating laser, manual wall mount bracket, RC360 remote control, battery (AA) for the remote control, battery holder for alkaline batteries, red target plate, red laser glasses and batteries for laser.

Article no. 772789

1

Leica Roteo 35

The all-in-one rotating laser

The Leica Roteo 35 impresses everyone with its powerful features and complete set of accessories for every application, especially for interior jobs. The wall mount bracket allows convenient motorised control of the laser beam height by using the combined remote control/detector or by manual adjustment.

2 Roteo 35 Package

Leica Roteo 35 WMR rotating laser, motorised wall mount, RRC360 combined remote control/ detector unit with clamp, 9V battery for the combined unit, battery holder for alkaline batteries, rechargeable batteries, international charger, red target plate and red laser glasses.

Article no. 765752

2

Leica Roteo 35G

Top visibility and working distance

The Leica Roteo 35G has all the characteristics of the Leica Roteo 35. In addition, it has a green laser beam for better visibility in very bright conditions and over long distances. The pioneering green laser beam is four times more visible to the human eye, so with this laser you have the best possible visibility.

3 Roteo 35G Package

Leica Roteo 35G rotating laser, motorised wall mount, RRC350G combined remote control/ detector unit with clamp, 9V battery for the combined unit, battery holder for alkaline batteries, rechargeable batteries, international charger, green target plate and green laser glasses.

Article no. 798056

Article no. 772795

2 RC360 Remote Control for Roteo 20HV/35/35G

Article no. 833120

3 CTP106-1 Aluminium Tripod

Light-weight with shoulder strap and side clamp screws.

Article no. 789913

4 CET103 Crank-Head Tripod

Professional, multifunctional aluminium elevator tripod with shoulder strap, fast clamps and bubble, min. working height 84 cm, max. extension 246 cm (incl. extendable centre column), with mm-scale, exchangeable rubber feet.

Article no. 768033

Construction Lasers

Whether it's general construction, pipe laying, machine control, or interior walls and ceilings, our lasers are built to handle any environment.

All construction lasers are of high technology and high precision tools. Compare these features and you'll see why our construction lasers set the standard for durability and value. Leica Geosystems lasers are waterproof, that means all critical components are completely protected from all wet weather conditions.

Construction-tough components have all undergone rigorous testing to assure long life under harsh conditions.

Leica MC200 Depthmaster

Depth indication system

The Leica Depthmaster reception area is 200°. The intensity of the LED cluster of indicator lights can be seen even on the brightest of days and indicates the on grade position relative to the plane of laser light. With its patented internal verticality control system, grade control will be more accurate as verticality is a prerequisite for precise measurements.

1 Depthmaster Excavator Receiver with Magnetic Bracket

Package includes Depthmaster with carrying case, battery pack NiMH for Depthmaster, magnetic bracket, charger and user manual.

Article no. 742440

2 Depthmaster Excavator Receiver with Clamp-on Brackets

Package includes Depthmaster with carrying case, battery pack NiMH for Depthmaster, clamp-on bracket (2x), charger and user manual.

Article no. 742438

LMR 240

240° machine receiver

The LMR 240 receiver provides accurate grade information for all visual machine control applications, with 240° reception from any rotating laser.

3 LMR 240

LMR 240 with magnetic mount, carrying case and batteries.

Article no. 773569

LMR 360

360° machine mounted receiver

Built-in vertical indicator monitors angle of the stick, signalling if it's plumb or under or overextended. Vertical position ensures consistent and accurate grade readings, saving money by reducing over or under cutting.

4 LMR 360R with Clamps and LMD360R Remote

LMR 360 with mounting clamps, carrying case, NiMH batteries, charger and LMD 360R remote.

Article no. 6003352

LMR 360 with magnetic mounts, carrying case, NiMH batteries, charger and LMD 360R remote.

Article no. 6003353

Grade Lasers

Leica Geosystems offers grade lasers suitable for jobs of any size. They can be used for applications requiring accurate grade control such as building pads, parking lots and site preparation.

The Rugby 670 and 680 are semi-automatic lasers designed for the contractor that works mostly with flat work, but occasionally requires to level to a slope.

The Rugby 870 and 880 are fully automatic grade lasers for level, single and dual slopes. The Rugby 880 has the additional capability to work in the laying down position for vertical plane set-ups. Both lasers have smart features for slope catching, monitoring, axis alignment and more.

The Rugby 320, 410 and 420 are heavy duty, fully automatic grade lasers for level, single and dual slopes designed for larger applications and increased stability over time and temperature.

Optical Levels

Extreme robustness, high measurement precision and an extremely competitive price. All this makes the difference. Moreover, Leica Geosystems levels are so easy-to-use, there is no need to spend time on training.

Leica Geosystems levels can be configured to suit your work and preferences. Horizontal angles can be read in either degrees or gons, with some levels.

Leica NA700 Series

Built for builders, engineers and surveyors

Nothing stops a Leica NA700 level. A short drop onto the ground, a fall into water, vibration from heavy machinery – with a Leica NA700 level you just carry on working. No time-consuming checking or readjustment required. The 'best-in-class' optics enable you to always work as precisely as possible. What does this add up to? Reduced work downtime, and higher productivity, resulting in reliability and accuracy at an extremely reasonable price.

In every Leica NA700 series level lies over a century of research and development from forefathers Kern Swiss and WILD Heerbrugg. Continuous application of the most modern technology has led to Leica Geosystems of today.

2

Leica NA2/NAK2

The classical level

The Leica NA2 universal automatic level meets all requirements regarding precision, convenience and reliability. It was designed by surveyors and development engineers with years of experience, that know what a field instrument has to be able to do. The NA2 soon pays for itself, because it can be used for all types of surveying jobs; on building sites for routine levelling, in engineering projects and for geodetic control at all levels of accuracy.

Leica NA2 and Leica NAK2 are two universal automatic levels meet all the requirements of precision levelling.

1

1 NA2

Universal automatic level magnification 32x standard deviation per 0.7 mm (double-run levelling, depending on staff and technique).

Article no. 352036

NAK2 (400gon)

Magnification: 32x Standard deviation per km 0.7 mm (double-run levelling, depending on staff and technique).

Article no. 352039

NAK2 (360 degrees)

Same as before, but horizontal circle 360 degrees, optical scale interval 10', reading by estimation 1'.

Article no. 352038

Technical Data	NA2	NAK2
Magnification	32x FOK73 eyepiece (optional): 40x	standard: 32x FOK73 eyepiece (optional): 40x
Angle measurement	-	360°/400gon
Standard deviation (per km double-run)	0.7 mm/km (0.3 mm with parallel-plate micrometer)	
Dust / Water protection	IP 53	
Working temperature	-20°C to +50°C	
Weight	2.4 kg	
PROTECT service offering	Manufacturer's Warranty: Lifetime No Cost period: 3 years	

Accessories

1 GPM3 Parallel-Plate Micrometer

In container, measuring range 10 mm.

Article no. 356121

2 GOA2 Autocollimation Eyepiece

For all instruments.

Article no. 199899

3 GFZ3 Diagonal Eyepiece

Allows steep sights.

Article no. 734514

4 FOK73 40x Eyepiece

For NA2/NAK2, exchangeable against standard eyepiece.

Article no. 346475

Digital Levels

Levelling can be so easy with digital levels from Leica Geosystems. Push the button and heights, height differences and distances are automatically displayed. There will be no more misreading and interpretation errors in reading the staff.

It is also possible to use it as an optical level, however compared to a conventional level, the digital levels effortless, fast measurements could save you valuable time and reduce errors. Our digital levels even include additional error reducing functions such as built-in tilt sensors, preventing the system from measuring if the user operates outside the compensator range.

50-51 Leica Sprinter Series

Leica Sprinter 50

One-touch does it all

The Leica Sprinter 50 is the perfect levelling tool for daily tasks and basic work on the construction site. The user just aims, focuses the staff like an optical level, and measures by pressing one single button. The data is displayed almost instantly. Misreadings are eliminated, and error reducing functions, such as the tilt sensor, prevent the system from measuring if the user operates outside the compensator range.

1 Sprinter 50

Electronic level, standard deviation 2.0 mm, includes container, strap adjustment tools, user manual, leaflet and 4x AA batteries.

Article no. 762628

1

Leica Sprinter 150/150M/250M

Advanced opportunities

For more complex construction tasks, the Sprinter 150 automatically determines delta height and reduced level. The Sprinter 150M and 250M are the perfect tools for advanced construction levelling tasks. They can store up to 2'000 measurements, and the user can download and transfer these for further calculations to a PC with Excel® easier than ever before via USB. The Sprinter's onboard software, with functionalities such as Line Levelling and Cut & Fill as well as monitoring, facilitates all levelling jobs significantly.

2 Sprinter 150

Electronic level, standard deviation 1.5mm, includes container, strap, adjustment tools, user manual and 4x AA batteries.

Article no. 762629

2

Sprinter 150M

Electronic level with internal memory, standard deviation 1.5 mm, includes container, strap, adjustment tools, user manual, 4x AA batteries, USB cable and CD.

Article no. 762630

Sprinter 250M

Electronic level with internal memory, standard deviation 1.0mm, includes container, strap, adjustment tools, user manual, 4x AA batteries, USB cable and CD.

Article no. 762631

Multilingual Function

The Sprinter 150/150M/250M are featured with multiple languages onboard. This allows the user to choose their preferred language.

Technical Data	Sprinter 50	Sprinter 150/150M	Sprinter 250M
Height accuracies	Standard deviation height measurement per 1 km double run (ISO 17123-2)		
- Electronic measurement*	2.0 mm	1.5 mm	1.0/0.7* mm
- Optical measurement	With standard aluminum E-scale/Numeral staff: 2.5 mm		
- Single staff reading	Standard deviation: 0.6 mm (electronic) and 1.2 mm (optical) at 30 m		
Distance accuracies	Standard deviation distance measurement 10 mm for D < 10 m and (Distance in m × 0.001) for D > 10 m		
Range	2 - 100 m (electronic)		
Measuring modes	Single and Tracking		
Time for single measurement	< 3 sec		
Compensator	Magnet damped pendulum compensator (range +/- 10 min)		
Telescope	Magnification (optical) 24x		
Data storage	Up to 2'000 points (only 150M)		Up to 2'000 points
Environmental conditions	IP 55		
Power supply	AA dry cells (4 × LR6/AA/AM3 1.5 V)		
Weight	< 2.5 kg		
PROTECT service offering	Manufacturer's Warranty: Lifetime No Cost period: 2 years		

* 0.7 mm can be achieved with Sprinter fibre glass barcode staff

Leica Sprinter Accessories

1 GSS111 Dual Face Telescopic Levelling Staff

5 m, 4 sections, Sprinter barcode/E-Scale cm-graduation, with circular bubble, in transport bag (Std. version).

Article no. 741882

GSS113 Fibreglass Dual Face Staff

Fibreglass dual face staff 3 m, 1 section, Sprinter barcode/E-scale cm graduation, with circular bubble and transport bag.

Article no. 764452

2 CTP104 Aluminium Tripod

Medium duty aluminium tripod with carrying strap and fast clamps.

Article no. 767710

3 CTP106-2 Aluminium Tripod

Light-weight tripod with shoulder strap and side clamp screws. Complies with NA Levels.

Article no. 815503

Total Stations

Still using a measuring tape or an optical theodolite?

Do you need a tool that fulfils all measuring tasks on your construction site with ease, regardless of your profession?

The Leica Builder does it all for you.

54-55 Leica Builder Series

Leica Builder Series

For anybody working on or around a site with the need of a simple, intuitive, yet innovative, long-lasting and powerful measuring tool. Regardless of your profession, the Builder will amazingly accelerate your work flow. From simple tasks to professional all-day use, the Builder Series offers a scalable product family that exactly meets your needs.

1 Builder 109 Set

Theodolite with laser plummet, 1 keyboard, tribrach, Li-Ion batterie, charger, user manual and carry case.

Article no. 772727

2 Builder 209 Set

Total Station with EDM, serial RS232 interface, laser plummet, 1 keyboard, tribrach, 2x Li-Ion battery, charger, flat prism, reflector pole, user manual and carry case.

Article no. 772729

3 Builder 309 Set

Total Station with EDM, internal memory, serial RS232 interface, USB compartment, laser plummet, 1 keyboard, tribrach, 2x Li-Ion battery, charger, flat prism, reflector pole, USB to Mini-USB transfer cable, user manual and carry case.

Article no. 772731

4 Builder 409 Set

Total Station with EDM, internal memory, serial RS232 interface, USB compartment, laser plummet, 1 alphanumeric keyboard, tribrach, 2x Li-Ion battery, charger, TrueZero prism, reflector pole, USB to Mini-USB transfer cable, user manual and carry case.

Article no. 772733

5 Builder 509 Set

Total Station with multifunctional EDM, internal memory, serial RS232 interface, USB compartment, Bluetooth®, laser plummet, 1 alphanumeric keyboard, tribrach, 2x Li-Ion battery, charger, TrueZero prism, reflector pole, USB to Mini-USB transfer cable, user manual and carry case.

Article no. 772735

Accessories supplied with / optional

6 Connect Leica CC55 Field Controller

Load your preferred software tool and keep working as usual.

Article no. 6009104

All iCON Total Station kits contain these accessories:

- Total Station
- CF Card and USB stick
- Tripod
- Tribrach
- Communication handle
- Charger
- Batteries
- Prism
- Pole
- Pole clamp for controller
- Bi-pod
- Total Station carry case
- Controller with accessories
- Controller carry case
- Field Software

Leica iCON gps 60

Smart positioning on any construction site

Leica iCON gps 60 is a construction GNSS SmartAntenna for versatile positioning tasks specifically developed towards construction needs. Featuring superior GNSS technology and various integrated communication options, it meets all requirements for reliable and precise positioning work on site.

- Superior GNSS technology for maximum accuracy and reliability. Features Leica SmartTrack+ and Smart-Check+.
- Future-proof satellite tracking supports a wide range of satellite signals (GPS, GLONASS, Galileo, Beidou, ...)
- All-purpose GPS solution can be used as construction site GNSS Base, Rover or Net Rover, or in supervisor vehicle
- Unique flexibility for entry level machine control mounted inside a construction machine and off machine applications

iCON gps Base Station

iCON gps 60 GNSS SmartAntenna Base Station Kit; includes iCG60 Base Package & Case & Radio & Base Station Accessories

Article no. 6006870

The iCON GNSS kits contain these accessories:

- iCG60 GNSS SmartAntenna
- Internal Satel or Intuicom Radio (optional)
- Radio antenna (optional)
- Radio antenna adapter (optional)
- Charger
- Batteries
- Pole
- CC80 or CC66 controller
- Bracket for controller
- Field Software
- Carry case

Leica iCON builder 60

One instrument for many tasks

With Leica iCON builder 60, construction layout has never been more professional. The intuitive user interface paired with the highest quality manual total station perfects any job.

Leica iCON builder 60 packages:

1 Kit with iCON builder 62

2" Manual Total Station & iCONstruct start kit software onboard, 500m reflectorless range, tribrach, 2x Li-Ion battery, charger, TrueZero prism, mini reflector pole, USB to Mini-USB transfer cable, USB memory stick, quick guide and carry case.

Article no. 6008666

2 Kit with iCON builder 65

5" Manual Total Station & iCONstruct start kit software onboard, 500m reflectorless range, tribrach, 2x Li-Ion battery, charger, TrueZero prism, mini reflector pole, USB to Mini-USB transfer cable, USB memory stick, quick guide and carry case.

Article no. 6008668

Kit with iCON builder 69

9" Manual Total Station & iCONstruct start kit software onboard, 500m reflectorless range, tribrach, 2x Li-Ion battery, charger, TrueZero prism, mini reflector pole, USB to Mini-USB transfer cable, USB memory stick, quick guide and carry case.

Article no. 6008669

Leica iCON robot 60

One instrument for many tasks

Leica iCON robot 60 perfects one-person construction layout and 3D machine control. Its high performance tracking, innovative lock & find mechanisms and software that is tailored per work step, make it the ideal partner on site. The powerful iCONstruct field software used as remote control optimises the functionality.

Leica iCON robot 60 packages:

1 Kit with iCON robot 62 / iCON build / CC80

2" Robotic Total Station & iCON build Field Software & CC80 7" WIN Tablet.

Article no. 6010014

Kit with iCON robot 62 / iCON build / CC66

2" Robotic Total Station & iCON site Field Software & CC66 7" Tablet PC with long-range Bluetooth®.

Article no. 6006803

All iCON robot 60 kits contain these accessories:

- Total Station, iCONstruct Start Kit onboard software
- SD Card and USB stick
- Tripod
- Tribrach
- Communication handle
- Charger
- Batteries
- Prism
- Pole
- Pole clamp for controller
- Bi-pod
- Total Station carry case
- Controller with accessories
- Controller carry case
- Field Software

Leica iCON CC80

Rugged, lightweight controller for uncompromising site work

Leica iCON CC80 controller is the world's thinnest and lightest fully-rugged 7" Windows® tablet. It is built to enable easy, mobile work on-site and increase worker productivity without compromise. Powered by Windows® 8.1 Pro and an Intel® Core i5 processor, Leica iCON CC80 features a long life, user-replaceable battery and a daylight readable multi-touchscreen with high sensitivity for easy operation in all conditions

- Large 7" sunlight readable multi-touchscreen for convenient operation
- Microsoft Windows® 8.1 operating system, enables 3rd party applications as well
- Various wireless communication possibilities (Bluetooth®, Wi-Fi and integrated 3G/4G multi-carrier mobile broadband) for use with different sensors and internet access
- Fully rugged design for use in toughest conditions (MIL-STD-810G, IP65)
- Long life battery pack (up to 16 hours)
- Highly productive positioning work with Leica iCON site and Leica iCON build application software

Leica iCON CC65 / 66

Versatile tablet PC's are designed to transport a user's office directly to the field

The rugged, lightweight device has a clear and easy-to-use 7" touchscreen designed to facilitate with data collection tasks on site, while at the same time communicating with the central office, real-time data transfer is made easy! The tablet PC's are designed for the most demanding working environments and protected against hazards on a construction site, allowing them to provide optimal results in all harsh conditions.

Both tablet PC's can be used as a handheld, mounted on a tripod or detail pole for data collection.

- Large 7" sunlight readable touchscreen display for convenient operation
- Windows 7 Ultimate Edition multilingual operating system
- Various communication possibilities (3 G modem, Bluetooth®, WLAN, LAN, USB, RS232) for the use with different sensors for different applications
- Leica iCON CC66 model features long-range Bluetooth®
- Highly productive positioning work with Leica iCON build and Leica iCON site application software

Cable Locators & Signal Transmitters

The Digisystem family of locators represent the latest design in cable location technology.

With state-of-the-art Digital Signal Processing (DSP) and intelligent software, the Leica Digisystem makes locating underground cables and pipes a simple and efficient task, increasing your safety on site and ultimately saving you time and money.

Leica Digicat xf-Series Locators

Accurately locating buried utilities

The Leica Digicat xf-Series locators provide operators with additional 512 Hz and 640 Hz tracing modes, enabling operators to trace buried utilities over greater distances or to easily detect sewer – camera inspection systems. Additional features include Mode Lock – the locator starts in the last mode of operation Current Measurement when using the Leica Digitex xf signal transmitter and extended sonde depth.

Leica Digicat 500i xf

1 Digicat 500i xf

With its automatic controls and additional tracing modes of 512 Hz and 640 Hz, the Leica Digicat 500i xf has been specifically designed to provide operators with a reliable solution to long distance tracing and the detection of camera – sewer inspection systems. Combined with its precise and reliable utility positioning, the Digicat 500i xf will trace buried utilities and sewer inspection systems with ease. The Leica Digitex 100t xf signal transmitter or the more powerful Digitex 300t xf will allow users to trace buried utilities easier than ever before.

Article no. 50Hz: 798640 / 60Hz: 798641

Leica Digicat 550i xf

2 Digicat 550i xf

The Leica Digicat 550i xf has the same functionality as the Digicat 500i xf, with the added benefit of depth estimation, when used in conjunction with the Leica Digitex 100t xf, Digitex 300t xf signal transmitters or Sonde with a compatible 8 kHz, 33 kHz, 512 Hz or 640 Hz output.

Article no. 50Hz: 798642 / 60Hz: 798643

Leica Digicat 600i xf

3 Digicat 600i xf

The Leica Digicat 600i xf has the same functionality as the Digicat 500i xf with the added benefit of onboard memory and Bluetooth® connectivity. The onboard memory records information of how the Digicat 600i is used; this can then be uploaded using LOGICAT software via Bluetooth® connectivity and additional analysis can identify operator trends, training requirements and how the locator was used following a near miss or utility strike.

Article no. 50Hz: 798644 / 60Hz: 798645

Leica Digicat 650i xf

4 Digicat 650i xf

The Leica Digicat 650i xf has the same functionality as the Digicat 600i xf, with the added benefit of depth estimation, when used in conjunction with the Leica Digitex 100t xf, Digitex 300t xf signal transmitters or Sonde with a compatible 8 kHz, 33 kHz, 512 Hz or 640 Hz output..

Article no. 50Hz: 798646 / 60Hz: 798647

4

Leica Digicat 750i xf

5 Digicat 750i xf

The Leica Digicat 750i xf has the same functionality as the Digicat 650i xf with the added benefit of fully integrated GPS positioning. GPS technology and data logging delivers increased data on where, when and how the locator has been used. The data files can be uploaded using LOGiCAT VU software via Bluetooth® connectivity and additional analysis can identify the position of use, site conditions, operator trends, training requirements and how the locator was used following a near miss or utility strike. The Digicat 750i xf can communicate with Apple, Android and Windows devices, PC, Laptop, GIS field controllers.

Technical Data	Digicat 500i xf	Digicat 550i xf	Digicat 600i xf	Digicat 650i xf	Digicat 750i xf
Frequency / Mode	Power mode 50 Hz or 60 Hz, Radio mode 15 kHz to 60 kHz, Transmitter mode 8 kHz, 33 kHz, 512 Hz, 640 Hz, Auto mode = Power + radio mode				
Depth	Power to 3 m, Radio to 2 m Transmitter mode - Dependant on transmitter or Digimouse (Sonde)				
Depth estimation		Line mode - 0.3 to 3 m Sonde mode - 0.3 to 9.9 m 10% of depth in line or Sonde mode		Line mode - 0.3 to 3 m Sonde mode - 0.3 to 9.9 m 10% of depth in line or Sonde mode	Line mode - 0.3 to 3 m Sonde mode - 0.3 to 9.9 m 10% of depth in line or Sonde mode
Protection	Conforms to IP 54				
Bluetooth®	Not available		Enabled		
Windows compatible			Yes		
Android compatible			Yes		
Apple compatible			Yes		
Batteries	6 x AA alkaline (IEC LR6 supplied)				
Battery life	40 hours intermittent use (at 20°C)				
Weight	2.7 kg including batteries				
Compatibility	CSV file compatibility program				
Memory size				32 MB memory	64 MB memory
PROTECT service offering	Manufacturer's Warranty: Lifetime No Cost period: 1 year				
Applications (trades & tasks)	Utility contractors, site engineers, sewer inspection contractors, test and measurement specialists. Operators tasked with tracing, identifying and maintaining utilities				

Leica Digitex Signal Transmitters

Fully protected in the harshest conditions

1 Digitex 100t & 300t Signal Transmitters

To be used with the Leica Digicat locators to trace the route of buried utilities and provide depth estimation, when using a locator with depth estimation capabilities.

Article no. 100t: 795946 / 300t: 798651

Digitex 100t xf & 300t xf Signal Transmitters

To be used with the Leica Digicat xf locators to trace the route of buried utilities and provide depth estimation capabilities.

Article no. 100t xf: 798648 / 300t xf: 798649

Technical Data	Digitex 100t	Digitex 300t	Digitex 100t xf	Digitex 300t xf
Operating transmission frequencies	• 8.192 kHz • 32.768 kHz • Mixed 8/33		• 8.192 kHz • 32.768 kHz • Mixed 8/33 • 512 Hz • 640 Hz	
Output power	4 levels			
Induction (Max)	Up to 1W max			
Direct connection (when connected to a buried utility with an impedance of 300 Ohms)	Up to 1w max	Up to 3w max	Up to 1w max	Up to 3w max
Battery type	4 x D alkaline (IEC LR20), supplied			
Battery Life (Typical use at 20°C)	30 hrs intermittent use	15 hrs intermittent use	30 hrs intermittent use	15 hrs intermittent use
Weight	2.4 kg including batteries			
Dimensions	113 mm (H) x 206 mm (D) x 250 mm (W)			
IP Rating (Case lid closed)	IP 67			
IP Rating (Case lid open)	IP 65			
Warranty	1 year			

Leica Digisystem Accessories

Accessories supplied with / optional

1 Digitrace 30 m

Enables non-metallic drains, ducts or pipes, up to 150 mm in diameter to be traced.

Article no. 796702

Digitrace 50 m

Article no. 796703

Digitrace 80 m

Article no. 796704

2 Signal Clamp

100 mm clamp used to apply a traceable signal to conductive buried utilities, such as cables or pipes. Compatible with Leica Digitex signal transmitters with an output of 33 kHz.

Article no. 731056

3 Multi Clamp

80 mm clamp used in conjunction with the Leica Digitex to apply a traceable signal to conductive buried utilities such as cables or pipes. The Multi Clamp is compatible with Leica Digitex signal transmitters with an output of 512 Hz to 33 kHz..

Article no. 813369

4 Property Connection Cable Set

Cable set to apply a signal from Digitex onto property power cables. Compatible with Leica Digitex signal transmitters with an output of 33 kHz.

Article no. 731666 – UK version
731667 – North American version
731668 – European version
731669 – Swiss version
731670 – Australian version

5 Digimouse Standard Sonde (8 kHz & 33 kHz)

Compact dual frequency sonde used to trace drains, sewers and other non-conductive utilities.

Article no. 731053

6 MAXISONDE (8 kHz & 33 kHz)

A 55 mm diameter dual frequency sonde used to trace deep lying drains, sewers and other non-conductive utilities. MAXISONDE can be attached to a range of equipment including drain rods, boring tools and inspection cameras. Powered by 3 x AA alkaline batteries, with a depth range of 12 metres.

Article no. 813368

7 Carry Bag

Carries the Digisystem components (i.e. Digicat locator, Digitex signal transmitter and accessories).

Article no. 740307

8 i-Series Locator Rechargeable Battery Kit

Smart Charger with UK, EU, USA adaptors, i-series Locator NiMH battery pack and charging cradle.

Article no. 798281

9 t-Series Transmitter Rechargeable Battery Kit

Charger, t-series NiMH battery pack and charging cradle.

Article no. 798282

Leica ULTRA

Precision locating for utility tracing

The Leica ULTRA provides our most advanced precision utility tracing system. Intelligent signal processing has been integrated with unique flexible operating modes. Selectable antenna and customised frequencies optimises your instrument for site specific applications.

1 Leica ULTRA Locator

The Leica ULTRA is a precision utility tracing instrument configurable for extensive range of applications and allows for 100 customised frequencies and shows direction to the utility through left/right guidance arrows and an on-screen compass.

Article no. 818699

1

2 Leica ULTRA Advanced Locator

The Leica ULTRA Advanced features Offset Measuring for locating target lines not directly accessible from above, a transmitter to receiver link and AIM technology which analyses the surrounding area for noise, recommends the best frequencies and synchronises the transmitter output for accurate utility tracing.

Article no. 818698

2

3 Leica ULTRA Signal Transmitter – 5 WATT

A 5 WATT transmitter designed for the standard Leica ULTRA locator

Article no. 818702

3

4 Leica ULTRA Signal Transmitter – 12 WATT

An enhanced 12 WATT transmitter designed for the standard Leica ULTRA locator that extends the tracing distance and improves locator accuracy in complex site conditions.

Article no. 818701

4

5 Leica ULTRA Signal Transmitter – Advanced

An advanced transmitter featuring a 12 WATT power output, communication link to enable synchronisation by the Leica ULTRA Advanced locator, external 12V power connection and dual output.

Article no. 818700

5

	Standard	Advanced
Frequency range	50 Hz - 200 kHz	
Depth	max 6 m (20 ft)	
Depth accuracy	In line - ±5% to 3 m (±5% to 10 ft) Sonde - ±5% to 3 m (±5% to 10 ft) Passive - ±5% to 3 m (±5% to 10 ft)	
Enabled frequencies	512 Hz, 3.14 kHz, 8.192 kHz, 32.768 kHz, 83.1 kHz, 200 kHz	
Custom frequencies	Up to 100 custom frequencies from 256 Hz - 83 kHz	
Line direction compass with proportional L/R arrow guidance	Yes	Yes
Offset depth		Yes
AIM		Yes
Receiver / transmitter communications		Yes
Bluetooth® connectivity		Yes
PROTECT service offering	Manufacturer's Warranty: 1 Year

	5 WATT	12 WATT	Advanced
Power output	5 WATT	12 WATT	12 WATT
Enabled frequencies	512 Hz, 3.14 kHz, 8.192 kHz, 32.768 kHz, 83.1 kHz, 200 kHz		
Custom frequencies	Up to 100 custom frequencies from 256 Hz - 83 kHz		
External 12V power connection			Yes
Dual output			Yes
Receiver / transmitter communications			Yes
PROTECT service offering	Manufacturer's Warranty: 1 Year		

Leica ULTRA Accessories

1 A Frame

Cable fault finder buried direct in the ground and used to detect cable sheath faults.

Article no. 818708

2 Multi Clamp

Used to apply a traceable signal to a live cable. For use with ULTRA system signal transmitter.

Article no. 818704 125mm (5") Multi Clamp

Article no. 818705 178mm (7") Multi Clamp

Article no. 832972 80mm (3.15") Broadband Clamp (512Hz - 33kHz)

3 RFID Reader

For locating buried marker balls.

Article no. 842432

Leica UTILIFINDER+

Reduce risk of utility strikes

The Leica UTILIFINDER+ is a simple complete package for builders, paving, fencing and electrical contractors, working on outside domestic properties.

- Unique easy-to-use buried utility locator
- Large clear display with audible confirmation
- Auto mode combines multiple modes to help find more buried utilities
- Provides depth estimation to 3 metres
- UTILIGEN signal transmitter to improve detection of utilities
- UTILIDRAIN allows tracing of waste water pipes

1 Leica UTILIFINDER+

The UTILIFINDER+ provides a simple-to-use intuitive location system, featuring a proximity alarm to warn of shallow utilities.

Kit: Leica UTILIFINDER+, Leica UTILIGEN, Marking Chalk, User Manual, Carry Bag

Article no 813272 – Euro kit

Article no 813272 – UK kit

1

2 Leica UTILIGEN

Plug the UTILIGEN into a household socket and apply a signal onto the power cables. Use the UTILIFINDER+ to detect this signal and obtain a depth estimation with a simple press of a button.

Article no 813269 – European Plug

Article no 813268 – UK Plug

2

3 Leica UTILIDRAIN

Insert the UTILIDRAIN into drains or other nonconductive pipes to trace their route or position of blockage. Obtain depth estimation with a simple press of a button.

Article no 828308

3

Technical Data	Leica UTILIFINDER+	Leica UTILIGEN	Leica UTILIDRAIN
Mode / Frequency	Auto 8Khz 33kHz	33 kHz	8 kHz
Proximity alarm	Service less than 30cm deep		
Depth reading	Reading 0.3 to 3m		
Environmental protection	IP54, shower proof	Indoor use only	IP68
Power supply	Batteries 6 x AA alkaline (IEC LR6 supplied)	UK 13AMP plug mains 230Vrms	Batteries 1 x AA alkaline (IEC LR6 supplied)
Battery life	40 hours intermittent use (at 20°C)		
Plug Socket Type		EU, UK	
Weight	2.7kg including batteries	255 g	820 g including batteries
PROTECT service offering	Manufacturer's Warranty: 1 Year	Manufacturer's Warranty: 1 Year	Manufacturer's Warranty: 1 Year

Leica LOGiCAT VU

Leica's LOGiCAT VU is a Management and Monitoring System for analysing operational activity and workflow quality from Digicat cable locators.

Incorporating a suite of software tools, data can be transferred from the field directly to the office using the Logicat VU Mobile App. Plant, fleet and site managers can build a database records of one or more instruments.

Compliance to best practice

Monitor and demonstrate compliance to best practice through LOGiCAT VU. Demonstrate internal compliance to Quality Managers or clients that every care was taken to minimise risks during excavation.

- Helps reduce utility strikes to a near zero level
- Demonstrate compliance to best practice
- Provides a management tool to monitor operator performance and effectiveness
- Manage your fleet from one central system
- Transfer multiple instrument data directly from the field
- Develop comprehensive reports
- Display field data overlaid on digital map and images

Leica Geosystems - when it has to be right.

Revolutionising the world of measurement and survey for nearly 200 years, Leica Geosystems creates complete solutions for professionals across the planet. Known for premium products and innovative solution development, professionals in a diverse mix of industries, such as surveying and engineering, safety and security, building and construction, and power and plant, trust Leica Geosystems to capture, analyse and present smart geospatial data. With the highest-quality instruments, sophisticated software and trusted services, Leica Geosystems delivers value every day to those shaping the future of our world.

Leica Geosystems is part of Hexagon (Nasdaq Stockholm: HEXA B; hexagon.com), a leading global provider of information technologies that drive quality and productivity improvements across geospatial and industrial enterprise applications.
